**Subject:** Wow...what a vacation!

Andrew,

Only by following your program is it possible to go on vacation and while I was away I put 3 homes under contract and I am negotiating 2 more offers. As you say in the program, it is easier to have hundreds of agents showing my listings than it is for me to carry buyer after buyer around in my car. While I sat on the beach with my feet in the sand and boogie boarded with my grandsons, other agents were showing and sending me offers on my listings. YOU ARE A GENIUS!!! More importantly your program gave me the ability to take listings before my vacation. In both July and August I took 4 listings in 1 week. I returned to work today completely rejuvenated and energized just looking for someone to help. Thank you for all that you have done to give me the gift of being able to spend time with my family while also giving me the ability to achieve financial freedom.

I am forever grateful to you, my friend.

**Love,**
